

LIVE COUNTS & CAPACITIES

REAL DATA IN REAL TIME

Keeping track of counts and capacities in your facility has never been more important. The Connect2 live count and utilization feature is included with every subscription and can be integrated with your website! Displaying live count facility usage is a great way to provide exceptional service, real time data, manage your capacity counts and educate your patrons.

GATHER

Easily take counts in each location using the iPad or web application on any mobile device!

SHARE

Choose which locations you would like to publish out to your website and/or app.

ANALYZE

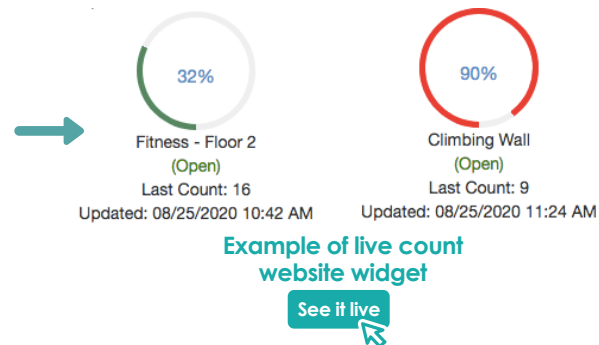

Automatically receive daily counts in your end of day report and use the capacity report to evaluate peak times and adjust operations/staffing accordingly.

ADJUST & ADAPT

Change capacities in each location on the fly and close areas as needed for cleaning.

Contact us to set up your live count data today!

See how your peers, [Clemson University](#) & [University of Florida](#), are using the live count widget!
